CPI

CORA™ Telemeter

SIMPLIFY YOUR CONNECTIVITY PORTFOLIO WITH RETROFIT CASHLESS

CORA is the next generation retrofit telemeter by CPI. An upgraded hardware solution complimenting the Crane Cashless platform, CORA is designed to maximize efficiency and servicability, while keeping your machines running at peak performance.
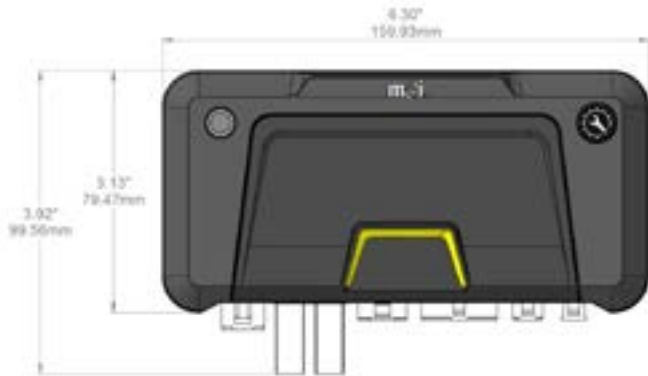

- High-performance 4G LTE antenna performs 30% better than competitors without any additional hardware

- Enhanced processor and increased memory allows for quicker boot-up time, 50% faster activation, and faster transaction processing

- Magnetic mounting, simplified cabling and cable-locking connectors deliver improved installation experience

- Bluetooth Low Energy (BLE) streamlines driver and technician interactions with the machine via the Simplifi mobile app

- BLE enables PayRange acceptance on every device with no additional hardware costs

- Embedded security features and CPI security protocols protect sensitive information and data at the machine and peripherary devices

CORA
Dimensions & Specifications

DIMENSIONS
6.25 L x 3 W x 1.75" H
Magnetic mounting
Interfaces
RS232 (Card Reader)
RS232 (DEX)
CAN
MDB Master / Client
General Purpose
1/4" RS232 Service Port
USB OTG (Mini-B)
WIRELESS COMMUNICATIONS
Cellular: 4G LTE CAT1
Primary and diversity antenna
support; external mount
Internal replaceable SIM card
ENVIRONMENTAL
Operating Temperature: -15 ˚C to +60 ˚C
Storage Temperature: -40 ˚C to +70 ˚C
Operating Humidity: 5% to 95% (Non condensing)
Storage Humidity: 5% to 95% (Non condensing)

HARDWARE
ARM Cortex M4 Processor
Security: Embedded secure element
Embedded Linux Operating System
256MB DDR RAM
4GB Flash
Power consumption: 2watts
REGULATORY COMPLIANCE
ROHS
FCC
PTCRB
ESD Protected
USER INTERFACE
Single button interface w/tri-color LED
